Focus Series 2027X Release Notes

Assembly Focus AutoCAM Focus

NEW **Now Available**

Face-Edit Focus

1. Fill Hole

Temporarily changed the 'Add blend curve' option to execute the function when the 'OK' button is clicked.

2. Extend Face

Temporarily changed the 'Extend face between two edges' option to execute the function when the 'OK' button is clicked.

CAM Focus

1. Chamfer

Fixed an issue where abnormal toolpaths were occasionally generated when using the 'Apex offset' option.

2. NC WorkSheet

Fixed an issue where the number of significant digits for the Y and Z position values in the screenshot was synchronized with that of the X position value.

3. Edit (CAM Focus)

Fixed an issue where the Top and Bottom fields were displayed as an absolute value of 0 in the edit dialog when both option values were left blank in an Operation.

4. NEW Edit/Duplicate (CAM Focus)

(1) Added the 'Same as Bottom' option to the Top type.

(2) Added the 'Same as Top' option to the Bottom type.

(3) Added the Stepover/Stepdown options.

5. Other Improvements

(1) Improved screen flickering that occurred during Operation creation/editing.

(2) Explode Sketch: Changed the internal implementation of the feature.
